What does it take to beat the best  
and get into IIT?  
brilliance. Grit. Ambition.  
***And a course called Elite.***

Every year thousands of intelligent, hardworking, ambitious young men and women burn with the desire to get into IIT. And the determination to make it happen.

Elite is the one course that shares this determination. That converts it into a carefully charted out and very real state of preparedness. That turns your bright potential into a glowing confidence that assures your success in the IIT-JEE.

Elite is, quite simply, an evolutionary marvel. Created in response to a very real need for assistance in facing the irrefutably daunting IIT-JEE, the Elite Course has grown in strength, content and dynamism. To equip you, not only with the necessary knowledge, but the practised skill in utilising that knowledge to acquire the problem—solving bent of mind so essential to succeed in the IIT-JEE.

To begin with, the basic philosophy behind the Elite Course is to put time firmly on your side. This is why the course is paced over 2 years, using the less taxing Std. XI year to your greatest advantage.

Comprehensive Postal Lessons build up an unshakeable knowledge base of the fundamentals. Assignments containing hundreds of problems of varying complexity gradually sharpen your problem-solving skills. 2 years' Y.G. FILES challenge you with 3000 super-tough problems. A committed 'Doubt Letter Scheme' allows you to clarify doubts with our professors by e-mail.

***Brilliant e-tutor: And now, for the first time ever, Brilliant is proud to present a series of video lectures by the very same professors who have committed themselves to your success over the years. Over 175 hours of lectures, all designed to be in sync with the study material and uploaded at the same time as the corresponding module. Watch these lectures at your convenience without concern about having missed a live class.***

***Choose only those topics you think will help you understand the subject better – so you pay only for what you need!***

***You can come back at any time for other lectures as you progress in your studies.***

***This is the first time in our 50 year history that we are offering this option because we believe it to be in our students' best interests. We hope you will take full benefit of this offer.***

While building up your foundation, the Elite Course simultaneously works towards creating in you the calm, quick-thinking temperament needed to perform in actual test conditions.

14 Unit Tests based on the chapters of each Module and 3 Part Tests covering the full-syllabus of selected topics all these heighten your level of preparedness.

Finally, you will actually tackle, again and again, question papers, testing conditions, time factors and competition identical to those you will face in the IIT-JEE, through 10 Full-syllabus B.MAT Mock Test Papers for Main, 10 Full-syllabus B.MAT Simulator Tests for Advanced and B.MAT's 8 Full-Syllabus Tests for both Main and Advanced.

At the end of 2 years you will have completed the most systematic, scientific and successful preparation for the IIT-JEE. You will approach it with the same confidence that has fired thousands of Brilliant students, year after year. And above all, you will know you have given yourself the best chance of going out there and making it to the very top.

Further, in response to requests from several parents and students who wish to appear for both, the IIT-JEE and NEET-UG, after the Class 12 Board Exams, we also offer you the option of receiving our study material and Videolectures for Biology for the NEET-UG Exam along with your study material in Physics, Chemistry and Mathematics for the IIT-JEE (Main and Advanced). This will facilitate your preparation for both the Engineering and Medical Entrance Exams right from Class 11.

If you decide to exercise this option, you will receive the Biology study material at the same time as the IIT-JEE material, according to the dispatch schedule given below. You will also be eligible for the online Test Series in Biology that our NEET-UG students will be administered.

To receive the Biology material all you have to do is to choose that option on the application for enrolment and return it to us with the payment details. Its as easy as that!

We look forward to hearing from you soon.

With our very best wishes always,  
The Management and Faculty  
Brilliant Learning Solutions Pvt. Ltd.
